PROFESSIONAL SUMMARY

Final year Computer Science Student at the University of Wollongong, studying a double major of Software Engineering and Artificial Intelligence. High interest and passion in building clean, functional web applications and real-world solutions. Experienced in React.js, JavaScript, Java and other technologies, backed by extensive leadership roles in hospitality and continuous creation of personal projects. Actively growing my skill set and applying new knowledge to a growing portfolio of developments. Seeking a graduate or junior role in the development field to further apply and grow these skills.
